9. AFFIDAVIT and permission for municipal, county, and state officials to enter the property for inspections:

I agree the statements made above are true, and if found not to be true this application and any approval will be void. Further, I agree to comply with the conditions and regulations provided with this Land Division Application approval. Further, I agree to give permission for officials of the municipal, county, and the State of Michigan to enter the property where this parcel division is proposed for purposes of inspection to verify the information on the application is correct. Finally, I understand this is a parcel division that conveys only certain rights under a municipal land division ordinance and the Michigan Land Division Act (MCL 560.101 *et. seq.*) and is not a representation or determination the resulting parcels comply with other ordinances or regulations, and does not include any representation or conveyance of rights in any other statute, building code, zoning ordinance, deed restriction or other property rights.

Further, I understand the municipality granting approval of any division(s) is not liable if a building permit is not issued for the parcel due to unsuitable site conditions for onsite sewage systems and/or onsite water supply systems. I understand that site suitability will be reviewed by the local health department under the same standards as set forth in MCL 560.105(g) – the Michigan Administrative Code R560.401-560.428. Checking with the local county or District Health Department for septic and water is the landowner's responsibility. For environmental concerns with the ownership or purchase of property, information is available from the Department of Environment, Great Lakes, and Energy at: <http://www.michigan.gov/eglerd>.

Finally, I understand an approved Land Division must be completed by recording a document accomplishing the approved Land Division or Transfer with the Emmet County Register of Deeds Office. A Land Division approval is considered revoked if this hasn't been completed within 360 days of the date of approval. Even if this division is approved, I understand zoning, municipal ordinances and state acts change from time to time, and if changed the divisions made here must comply with the new requirements (apply for division approval again) unless deeds, land contracts, leases or surveys representing the approved divisions are recorded with the Register of Deeds or the division is built upon before the changes to laws are made.
