Snow Plowing Requirements for Springvale Township

Snow removal is to include recycling area, driveways, parking lots and sidewalks, to front and back entrances, of the new Fire Building, the old Fire Building and the Township Hall (including the short sidewalk to the “Little Library” box--red cabinet of books--by the main entrance to Township Hall). It is an expectation that snow removal will only occur following the accumulation of between two (2) to three (3) inches of snow or more. Removal of snow amounts less than two (2) inches of snow is not necessary.

It is important that each Tuesday snow conditions are addressed. The Treasurer holds open office hours on Tuesday morning. Make sure sidewalks are cleaned by 7 AM. Also, recycle/transfer station bins are removed and replaced Tuesday mornings.

Please include a price for sanding the parking lots and driveways, if you are capable of providing this service. Sanding should be performed as soon as possible following an icing event or conditions that leave driveways, parking lots and sidewalks in a slippery condition.

Please include a price for removing banks, should it become necessary, if you are capable of providing this service. Snow banks should be pushed back or removed to permit safe use/maintenance of driveways and sidewalks, and to allow access and egress to the Township Hall (including the exit door facing North onto East Mitchell Road) and Fire Department driveways from main road.

Acceptance of all or part of the above expectations is to be included in the bid proposal.

Please structure your bid on a cost per site per visit.

Prior to beginning work the Successful bidder MUST provide the township clerk with a Tax Identification Number/Social Security Number, a Certificate of Liability Insurance, and Certification of Non Iran-linked Business involvement.

The Township reserves the right to accept or reject any or all bids and there is no requirement to accept the lowest bid.

Please feel free to contact the Supervisor at (231) 622-1888 or Clerk at (231) 347-0526 with any questions.
